

### **chapter 14 work power pdf**

Chapter 14 Work, Power, and Machines Summary 14.1 Work and Power For a force to do work on an object, some of the force must act in the same direction as the object moves. If there is no movement, no work is done. Work is the product of force and distance. Work is done when a force moves an object over a distance.

Chapter 14 Work, Power, and Machines 14.1 Work and Power Work is the product of force and distance. You can calculate work by multiplying the force exerted on the object times the distance the object moves.  $Work = Force \times Distance$ ;  $W = Fd$  Work is done when a force moves an object over a distance.
