This preparatory guide for those seeking NSCA CSPA certification is also a practical reference for exercise professionals who work with special populations, including clients with various physical or cognitive conditions and disorders.

NSCA's Essentials of Training Special Populations

A post and core crown is a type of dental restoration required where there is an inadequate amount of sound tooth tissue remaining to retain a conventional crown. A post is cemented into a prepared root canal, which retains a core restoration, which retains the final crown.. The role of the post is firstly to retain a core restoration and crown, and secondly to redistribute stresses down onto ...
