Threshold Concepts and Troublesome Knowledge

MOST is UNESCO's intergovernmental science programme on social transformations. MOST works with governments, social and human science communities and civil societies to improve connections between knowledge and action, connections that are one key to positive social change.

Management of Social Transformations (MOST) Programme

5 Leveraging the digital transformation for better policies Governments can leverage digital technologies to re-invent policy design and experimentation, implementation, monitoring and evaluation, and better serve the needs of citizens, e.g. in fostering smart cities. To enable evidence-based policies, better measurement and analysis of the digital

GOING DIGITAL: MAKING THE TRANSFORMATION AND WELL-BEING

An information society is a society where the creation, distribution, use, integration and manipulation of information is a significant economic, political, and cultural activity. Its main drivers are digital information and communication technologies, which have resulted in an information explosion and are profoundly changing all aspects of social organization, including the economy ...

Does Culture Matter? The Military Utility of Understanding

The Great Transformation is a book by Karl Polanyi, a Hungarian-American political economist. First published in 1944 by Farrar & Rinehart, it deals with the social and political upheavals that took place in England during the rise of the market economy. Polanyi contends that the modern market economy and the modern nation-state should be understood not as discrete elements but as the single ...
