This site, which includes nearly 40 properties, was contaminated by uranium. The government is in the process of cleaning up the properties under the Formerly Utilized Sites Remedial Action Program.

St. Louis Downtown Site â€” St. Louis, Mo. â€” Waste Lands

In the densely populated Hong Kong, waste is a complex issue. The territory generates around 6.4 million tons of waste each year but is able to collect and process only a minimal portion of recyclable waste. By 2019, its existing landfills are expected to be full. The government has introduced waste management schemes and is working to educate the public on the subject.

Waste management in Hong Kong - Wikipedia

The Division of Waste Management works closely with the department's district offices to implement state and federal laws to protect the environment from the improper handling and disposal of solid and hazardous wastes.

Summer 2014 â€“ Spring 2015: David Groÿ took wastecooking on a European tour. His mission: Travel through 5 European countries in 5 weeks and only cook up what others throw out or allow to go to waste. David got some help along the way from friendly activist groups, chefs and scientists. The adventure was captured on film as a five-part television series and an evening-filling documentary film.
