As a follow-up to my controversial post on the effect of infrared "back radiation" downwelling from the colder sky to the warmer surface, the existence of which some dispute (despite the real-time availability of such data), I've come up with an experimental setup to see how IR radiation from the sky influences air temperature near the ground.

Experiment to Test the Temperature Influence of Infrared

Willie Soon, a prominent global warming skeptic, says "no amount of money can influence what I say or do or research or write." If recently released documents are accurate, he is a liar.
